

Questions for Regulator group

1. How effective were your interventions in balancing the needs of all stakeholders? Were there any missed opportunities to step in?
2. If you had to propose a new regulation or reform, what would it focus on and how would it address the challenges you saw in the game?
3. Is not providing any regulation the means of encouraging innovation and regulation in the platform economy? In your country, how does gig work on digital platforms challenge aspects of the Sustainable Development Goals 8 (promotion of full and productive employment and decent work for all)?
4. Platforms make seemingly unilateral decisions that affect various aspects of drivers work including rates, allocation of work, working hours. Can a regulator facilitated committee help make decision making less one-sided?
